

# Save Him

You choose to help McAllister.

Your job as detective is to find McAllister, which you've succeeded in doing, and how can you leave a man to die here?

You call authority's who quickly arrive to whisk McAllister off the hospital to safety and apprehend Nicholas.

McAllister make's a full recovery and personally thanks you for saving his life. He pledges to make the seas even safer before retiring from his role. In return he ask's you to keep his secret safe.

Multiple months later the seas are the safest they have ever been, pirate's fight only amongst their selves leaving the rest of the oceans in peace.

Then one day reading the newspaper, you see a set of familiar names in the marriage announcements.

Congratulations Detective, you found Captain McAllister!
